English

Poetry: Cinquains:

Inspired by Where the Poppies Now Grow, children will explore cinquain poetry. They will experiment with carefully chosen words, imagery and poetic structure to create their own meaningful poems.

The Promise:

Inspired by The Promise, children will explore narrative writing. They will experiment with descriptive language, characterisation and storytelling techniques to create their own engaging narratives.

Stone Girl, Bone Girl:

Inspired by Stone Girl, Bone Girl, children will explore biography writing. They will learn how to select key facts, organise information chronologically and use descriptive language to tell the story of an inspiring life.

Maths

Addition and Subtraction:

Children will use efficient mental and written methods to add and subtract larger numbers. They will apply these skills to solve reasoning and problem-solving questions.

Multiplication and Division:

Children will build confidence using multiplication and division facts, learn formal written methods, and use their skills to solve a range of practical and reasoning problems.

Fractions

Children will develop their understanding of fractions, including equivalent fractions, comparing and ordering fractions, and finding fractions of amounts. They will apply their knowledge to solve a range of practical, problem-solving and reasoning tasks, building confidence and accuracy with fractions.

Computing

System and Searching

Through the Systems and Searching topic, children will explore how computer systems work and how information is transferred between devices. They will develop their understanding of search engines, learning how to search effectively, select reliable results and understand how and why search results are ranked.

History/Geography

Who's in Charge in Tudor Times?

Children will explore who held power during Tudor times, investigating the roles of monarchs, religion and the monarchy's influence over everyday life. They will examine key Tudor rulers and events, developing their understanding of power, leadership and change over time. A visit to Hampton Court Palace will support their learning by allowing them to explore a significant Tudor palace and develop a deeper understanding of Tudor life, power and royal authority.

Chambersbury Primary School

Autumn 2

Year 5

Art/DT

Talking Textiles

Children will explore how stories and ideas can be communicated through textiles and visual design. They will collect visual information to inspire their ideas and experiment with different textile techniques, materials and effects to create meaningful and imaginative designs.

Music

Jazz

Children will explore the exciting world of jazz through listening, performing and improvising. They will learn and perform Three Note Bossa and Five Note Swing, developing their understanding of rhythm, melody and musical structure while experimenting with improvisation and creating their own musical ideas.

PE

Football

Children will develop their football skills, focusing on passing, dribbling, shooting and controlling the ball. They will apply these skills in games, developing their understanding of tactics, movement, teamwork and fair play.

Basketball

Children will develop their basketball skills, focusing on passing, dribbling, shooting and movement. They will apply these skills in games, developing their understanding of tactics, teamwork and fair play while building confidence and coordination.

PSHE

Celebrating Difference

Children will explore what makes each person unique and develop an understanding of how differences can be celebrated and respected. They will consider stereotypes, discrimination and the importance of showing kindness and empathy, learning how to appreciate and value the diversity within their community.

RE

Why Is Light Such an Important Symbol?

Children will explore how light is used as a symbol in different religions and beliefs, considering what it can represent, such as hope, guidance, goodness and new beginnings. They will investigate religious stories, celebrations and practices involving light, developing their understanding of how symbols can express important beliefs and ideas.

Science

Earth, Sun and Moon

Children will explore the Earth, Sun and Moon and develop their understanding of how they are connected within our solar system. They will investigate the movement of the Earth and Moon, including day and night and the apparent movement of the Sun across the sky, using models to explain these scientific ideas.

French

Me and Others (Part 2)

Children will build on their French speaking, listening, reading and writing skills through the topic Me and Others. They will develop their vocabulary and sentence structures to describe themselves and others, ask and answer questions, and communicate with greater confidence and accuracy in French.
